BUSINESS SHARKS

In Business Sharks, students play the role of entrepreneurs as they start with the germ of an idea for a product/business & take it through the entire entrepreneurial process.

Students develop prototypes, formulate a business plan & devise a marketing strategy. Meanwhile, students learn through contextual lessons on concepts such as wages, profits & branding while designing print ads, acting out "TV commercials," researching real estate locations & designing their storefronts.

The class concludes with the young executives pitching their ideas to a "Shark Tank" of parents. These young entrepreneurs will really be taking care of business!
